GitHub - cookbooks/runit: A Chef cookbook for runit Description. Installs runit and provides runit_service definition for managing new services under runit. This cookbook does not use runit to replace system init, nor are there plans to do so. About Cookbook Versioning â€" Chef Docs A cookbook version is defined using syntax and operators, may be associated with environments, cookbook metadata, and/or run-lists, and may be frozen (to prevent unwanted updates from being made. [chef] Re: Re: CHEF-154 and upcoming change to runit cookbook This is an exemplary change notice. Is there a Cookbook convention yet for distributing notices like these with a cookbook? If not, I'd nominate this notice and the runit cookbook as candidates.

chef - Packer docker build exits code 137 when running ... I'm trying to use Packer to build a docker image of the webapp I'm working on. Whenever I run packer build, when it gets to the step that it runs the runit recipe, I would get Build 'docker' errored:. chef - [chef] Re: runit cookbook behaviour - lists.opscode.com I've tested the latest runit cookbook on my debian installation and found out that it just fails in the moment of init.d script creation. I am already aware of COOK-2322, that corresponds to this problem.
